Subject: Support for a History District Commission

Dear Amy,

As a Zionsville resident, I would like to express my support for a Historic District Commission to protect the historic charm of the Village. I've been concerned at the modernity and scale of recent builds, in addition to the demolition of historic properties leading to vacant lots. I believe a governing entity would ensure consistent architecture and preserve the heritage of the Village for many more years to come.

Kind Regards,

Amanda Richardson
